DRAWN BY: D.M.D. CHECKED BY: SCALE: REVISED: NUSPC 7-29-10 8-20-11 DRAWING NO: 12842

REFERENCE NOTE:  
1. THIS PLAN SET REFERENCES THE SURVEY ENTITLED "THE SCHEDLER PROPERTY," PREPARED BY DANIEL M DUNN PLS, PP DATED SEPTEMBER 10, 2015.

**CHROMIX® P Admixtures**  
for Color-Conditioned Concrete

Add beauty to both vertical and horizontal projects with CHROMIX® P admixtures. The reliable, non-fading and consistent admixture for use in place and precast concrete has been proven to stand the test of time.

Available in three convenient forms:

- CHROMIX G (granular)
- CHROMIX L (liquid)
- CHROMIX P (powder)

LITHOCHROME® Colors™ is available in matching colors. Review Tech-Data Bulletin and SDS before use.

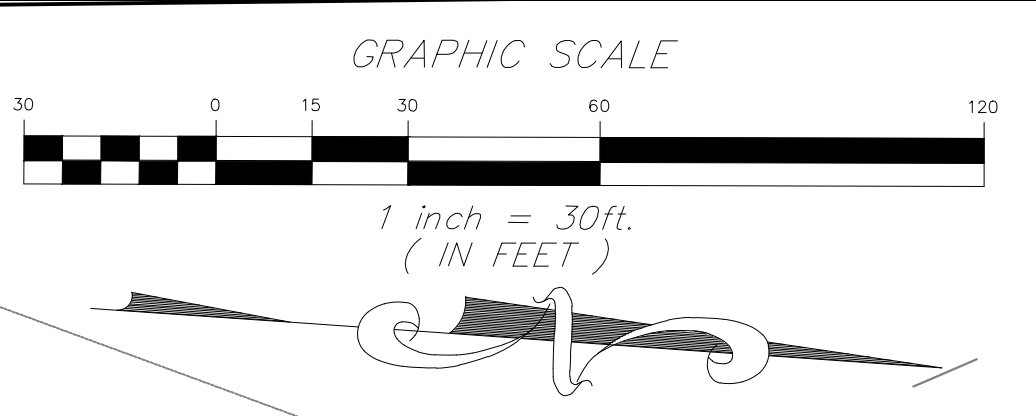

Visit [www.scotfield.com](http://www.scotfield.com) for the most current variations.

\* Greater color only available in CHROMIX P (powder) form.

Concrete appearance is the color of brown dyed concrete. Natural color with a reddish glow. Concrete color will match color. Concrete color will not fade over time and will last.

Concrete color is affected by many factors including cement and aggregate color, slump, finishing practices, and curing method. Color consistency between batches, horizontal and vertical surfaces, and weathering, especially when used in exterior applications, should be tested and approved.
